🪪 SUMMARY

I'm a Full Stack Developer with over 2 years of experience in
JavaScript, TypeScript, React, Redux, Node.js, and SQL. I also have a
strong background in HTML, CSS, and preprocessors like SASS/SCSS.
Additionally, I am proficient in Figma, Photoshop, and other graphic
design tools.
I've worked on both frontend and backend tasks as part of a team
developing full web applications. I have hands-on experience with a
Telegram bot and a GTA5 game server. My studies also provided me
with significant experience in SQL.
